## RAIN Smart Neighbourhoods

RAIN Smart Neighbourhoods is a project designed to engage homeowners to manage precipitation on their properties and increase the resiliency of stormwater infrastructure in their neighbourhood.

Since 2016 in the Mt. Hope neighbourhood, this program has resulted in:

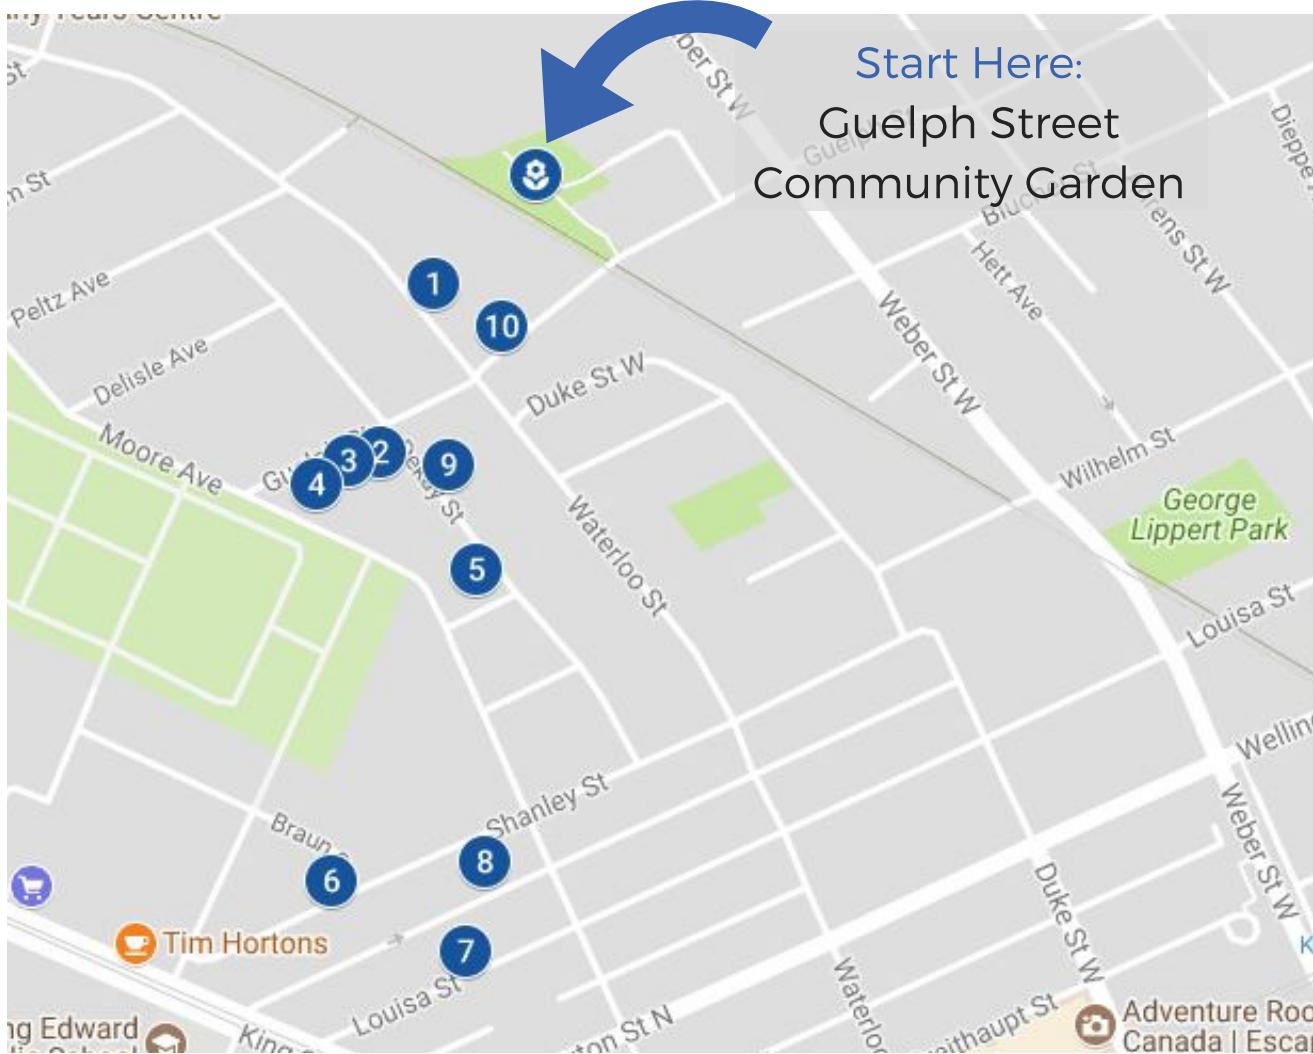

- 51 on-property RAIN Coach consultations
  - Construction of 10 rain gardens
  - Construction of 6 infiltration galleries
  - Installation of 1 permeable driveway
  - Installation of 3 cisterns
  - Installation of 8 rain barrels

RAIN Smart projects in  
Mount Hope created  
45,225 L  
of stormwater storage capacity!
